

MEETING THE NEEDS OF DIVERSE LEARNERS

St. Joseph Catholic School is blessed to work with students with a wide range of gifts, talents, and abilities. Our faculty, with the support of each student's family, is committed to helping students grow. In keeping with this commitment, we strive as a staff to differentiate instruction to meet the unique needs of each learner. We work with students and their families to make sure students are being challenged at the appropriate level.

For students who have identifiable learning differences, we work to understand their needs and seek to develop strategies that will allow them to be successful in the classroom setting. We also have a Reading Support Specialist who works with students in first through third grades.

Due to limited support staffing, we may not be able to provide appropriate support for some students with more significant learning differences. In these cases, we are committed to working with families to help them find services and support through other organizations or schools in Clark County.
