

# It's time for Summer Reading!

This summer we will again be using the on-line Scholastic Summer Reading Challenge to track your student's reading minutes.

To register go to [www.scholastic.com/summer](http://www.scholastic.com/summer).

- Click "Go Now" under the "Kids & Families" tab and follow the directions to sign up.
- Parent permission is needed to register an account and link reading minutes to the school.
- Books and other prizes will be distributed to summer readers in September.

Summer reading helps students keep their brains active and their reading skills sharp, preventing learning loss. Public libraries (over 95%!) have offered summer reading programs for decades, and studies have repeatedly measured and documented the benefits of leisure reading during the summer break. Encourage your favorite young reader to spend the summer relaxing with some good books.
